

# SITE SAFETY GATHERING

◆ CONSTRUCTION SAFETY WEEK 2020 ◆

The main theme of Construction Safety Week 2020 (CSW 2020) is “Safety x Smart Sites”, promoting the use of innovative and smart technologies to uplift construction safety. As a forerunner event echoing the theme of CSW 2020, “Site Safety Gathering” aims to engage workers and frontline supervisors from different worksites to experience the use of innovative technologies to enhance construction safety, particularly for lifting operation safety.

The organiser will provide a set of VR training software and a Lifting Safety Handbook to all participating units to complement their safety promotion activities at site level suiting their own needs.

## Enrollment

Start Date 29 July 2020  
End Date (1st Batch)\* 7 September 2020 (5pm)  
Method By completing the application form on Construction Safety Week 2020 website ([www.safetyweek.hk/web/subpage.php?mid=169](http://www.safetyweek.hk/web/subpage.php?mid=169)).

\*For any projects enroll after the deadline for the 1st batch, the organiser will regularly approve and release access key of VR safety training software download platform.

## Submission

Applicants shall submit a PowerPoint Presentation (3 to 5 slides with size less than 10 MB) comprising project information, e.g. construction period, major operations and project characteristic etc.

## Target Participants

All construction projects in Hong Kong. Participating units are on project basis, including New Works, Repair, Maintenance, Alteration and Addition (RMAA) and Minor Works.

# SITE SAFETY GATHERING

◆ CONSTRUCTION SAFETY WEEK 2020 ◆

## VR Safety Training Software Download Platform

Successful applicants enrolled will receive the access key# for VR safety training software download platform in September 2020 to download VR safety training software for FREE.

#The access key will have an expiry date. Participants may require to extend the access right by further application and details will be announced later.

## VR Safety Headset

Participants shall purchase VR headset at their own expenses. The VR safety training software is compatible with VR headsets including Lenovo Mirage Solo, Oculus Quest, Oculus Go and HTC Vive. Desktop version of the VR safety training software is also available for those participants who have difficulties in acquiring a VR headset.

## Subsidised Programme for VR Headset

To encourage more contractors to adopt innovation technologies, participants may apply for the subsidised programme to get a FREE VR headset if they have not joined the Site Safety Gathering 2019. As the quantity of VR headset is limited, the organiser retains the right to have the final decision on the allocation of FREE VR headsets.

## Announcement for Enrollment in the Event and Subsidised Programme

The organiser will inform the successful participants of “Site Safety Gathering” and subsidised programme for VR headset by September 2020.
